ABOUT ME

A React.js and Angular Developer/Frontend Developer.
I'm a code enthusiast that enjoys experimenting with new technologies and building web apps.
A sophomore at SVCET pursuing a B.Tech degree in Computer Science and Engineering (4th year). When I am not working/coding, I usually spend my time sketching and reading.

EXPERIENCE

FRONTEND DEVELOPER INTERN - @f1Studioz (06 months)

- As an Intern here, I Worked on developing production-ready web-apps using React Js, Angular, Redux toolkit, Bootstrap, Tailwind Css, HTML, CSS, APIs integration for frontend and got familiar in using Git for collaborative development.
- A great team member, good with overall team communication.

PROJECTS

TECHIE - All in one productivity Web-App:

- Used technologies: HTML | CSS | React.Js | localStorage | JavaScript
- Developed an all-in-one productivity website, fully responsive.It includes all necessary productivity tools such as myNotes, Todos, Budgets, Color Palette, and A set of Que's./Ans. in Accordion format along with pagination and searching functionality.

CRYPTOCOSM - A Cryptocurrency Web Application:

- used technologies: HTML | CSS | React.Js | JavaScript | RTK Query | RapidAPI
- Developed 'Cryptocosm' a Cryptocurrency web application using Reactjs and RapidApi for providing the latest updates, value statistics, market cap, supply, and news regarding the cryptocurrency by market.

DSA CHROME EXTENSION - APIs Code | Extension Code:

- used technologies: HTML | CSS | JavaScript | Manifest File | NodeJs
- Developed a Chrome Extension that searches for code related to DSA problems.
- Deployed it on a web store named 'Quick Look at CODEs'
- Created the API used for the Extension using NodeJs, ExpressJs, and MongoDB.
